

TOP V6 BIMATERIAL PLAQUETTE

The FIRST Italian plaque that combines in a single co-molded body the benefits of high-quality nylon with the added value of the rubber to protect at the best your nets and plastic foils from damage. The **NEW** V6 plaque, with the **TECHNICAL UPGRADE** of **additional rubber thickness**, offers even more protection when nets and plastic foils are enclosed within the plaque. Assembly is quick and easy, thanks to a dedicated screw with hi-lo threading specifically designed for plastic materials.

Fastening with double screws.

TECHNICAL INFORMATION

TYPE OF MATERIAL:			
Solid outer side made in Polyamide 6. Soft inner side made with high resistance rubber with strong grip			
MECHANIC FEATURES	UNIT	VALUES	METHOD
ELASTIC MODULUS (E)	Mpa	3200	ISO 527-1/2
